

## Press Release

**Vault Security Systems AG has appointed Prof. Urs Gattiker, Ph.D., as Chief Operating Officer to the management team.**

Zurich, Switzerland - November 8, 2018: Vault Security Systems AG has appointed the Chief Operations Officer (COO) as a top-notch personality for its Blockchain-based global network, further strengthening its leadership team.

**Prof. Urs E. Gattiker, Ph.D.**, the leading expert on smart metrics, blockchain and counterfeit security, is appointed COO of Vault Security Systems AG. Urs is passionate about web analytics, data metrics and benchmarking. He previously taught as a professor at universities in Canada, Australia, Germany, Denmark and the USA in the fields of management, innovation & technology. Urs invented the DrKPI® brand, which advises Fortune Global 500 companies and start-ups in the areas of smart data, artificial intelligence, and privacy tools and services. 'With Urs we add an absolute expert and can ideally fill the important position of the COO. We look forward to our successful collaboration,' says CEO Arman Sarhaddar.

**Prof Urs E. Gattiker, Ph.D., Chief Operating Officer**

Vault Security Systems AG is the world's first global network to use blockchain technology for registering and identifying assets (such as lost items or stolen property). The network – which is open to everyone – lets users register their items on the blockchain through the iVAULT APP plus search for and identify items. These assets can be almost anything of value to the owner. For more information visit [www.vaultsecurity.io](http://www.vaultsecurity.io) or register at [iVAULT.app](http://iVAULT.app).
